Baseel Owl

Proactive Cyber Defence Starts Here

- **Real-Time Intelligence**

  Real time threat intelligence data to stay updated on emerging threats and vulnerabilities.

- **Predict, Protect & Prevent**

  Predict, Protect and Prevent against evolving threats.

- **Actionable Intelligence**

  Stay ahead of Cyber Threats with Actionable Intelligence.

Baseel
Security - Technology - Transformation

Why Baseel Owl

01 Baseel Owl, a threat intelligence platform analyses raw data to provide actionable insights, helping organisations proactively defend against cyber threats.

02 Data is centralised and automated to improve security operations and enhance incidence response to facilitate proactive defence, prioritise vulnerabilities.

03 Helps businesses identify and fix potential security issues, prevents data breaches and other security incidents.

Analyse

Raw data into actionable insights

Automate

Centralised security operations

Prevent

Breaches and security incidents

Baseel Owl

The Digital Threat Landscape Is Evolving.

Organisations face a growing, fast-moving set of external risks across every digital channel.

01 Increasing cyber threats and vulnerabilities.

02 Brand impersonation and online fraud.

03 Fake social media accounts and malicious campaigns.

04 Unknown digital assets and exposed attack surfaces.

05 Limited visibility into external cyber risks.

One Platform. Complete Digital Risk Visibility.

Pillar

01

Threat Intelligence

Identify emerging threats and vulnerabilities.

Pillar

02

Brand Protection

Detect impersonation and digital brand abuse.

Pillar

03

Social Media Monitoring

Monitor fake profiles and malicious activity.

Pillar

04

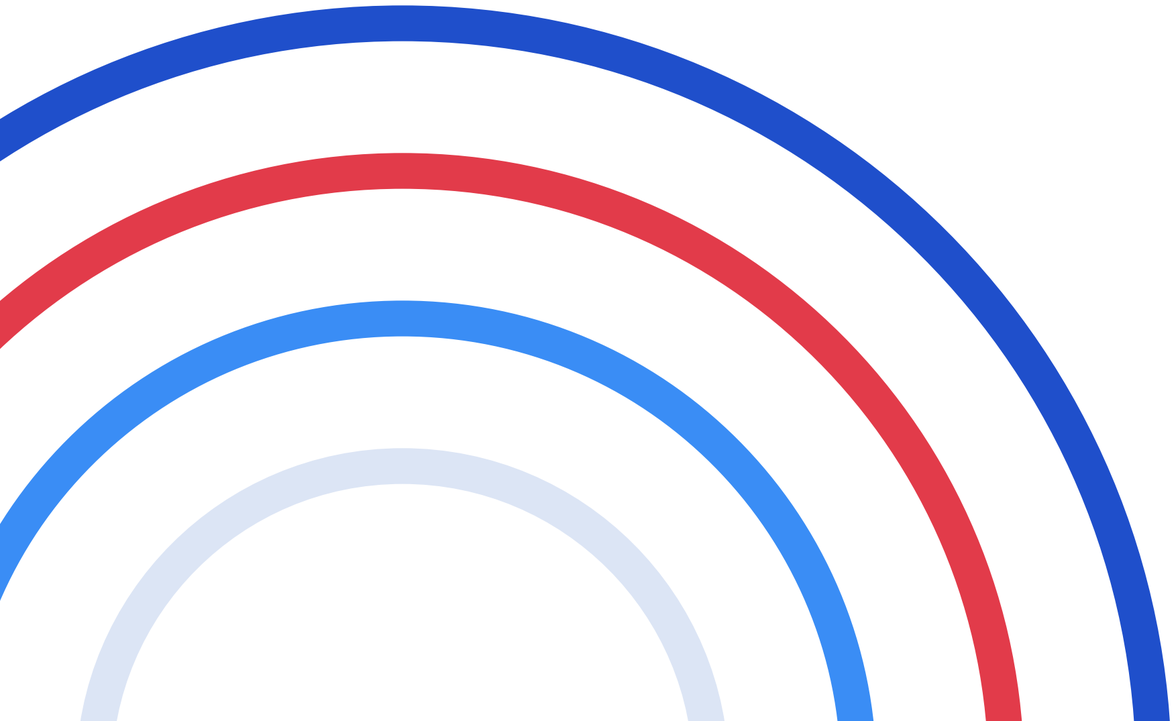

External Attack Surface Management

Discover exposed assets and security risks.

Baseel Owl

Why choose us?

Visibility. Intelligence. Protection.

01 Unified digital risk visibility.

02 Real-time threat intelligence.

03 Proactive threat detection.

04 Actionable security insights.

05 Continuous monitoring.

06 Improved security decision-making.

Baseel Owl

BUSINESS VALUE

Turning Intelligence into Business Protection.

- Reduce exposure to cyber threats.
- Safeguard brand reputation.
- Improve visibility of digital risks.
- Identify vulnerabilities earlier.
- Support faster, informed security decisions.

Baseel
Security - Technology - Transformation

Who Benefits From Our Solution

01

CISOs and security leaders.

02

SOC and threat intelligence teams.

03

IT security and risk management teams.

04

Brand and digital marketing teams.

05

Enterprises and financial institutions.

From Threat Discovery to Actionable Intelligence.

01	**EASM**	Discover and monitor your external attack surface to identify exposures before attackers do.
02	**Brand Protection**	Detect and prevent brand impersonation, phishing and digital brand abuse.
03	**Social Media Monitoring**	Identify fake profiles, malicious content and emerging social media threats.
04	**Domain Scanning**	Discover suspicious domains, detect phishing attempts and protect your digital identity.
05	**Threat Intelligence**	Gain real-time insights into emerging cyber threats and vulnerabilities to stay one step ahead.
